Sawyer

Brand	Photo	Name	Length	Shaft	Retail Price	Notes
Aqua Bound		Flaire	220 CM 230 CM 240 CM	Silver AL	\$60.00	Black, fiberglass reinforced polypropylene blade on a silver anodized aluminum shaft, with a swaged ferrule. 2 piece TAP construction, with 0° and 60°RHC feather positions. The stealthy black blade is great for kayak fishing...
Aqua Bound		Sting Ray	220 CM 230 CM 240 CM	Carbon TLC SS	\$185.00	The Sting Ray is an excellent all-purpose paddle with a blade shape that is silky smooth through the water - it is our best selling paddle! With the carbon abX blades, this paddle has an incredibly low swing weight and is unbeatable at this price!
Aqua Bound		Finstalker	230 CM 240 CM	Carbon TLC		The Fin Stalker fishing paddle by Aqua-Bound: Stealthy and light, the long slender blade is made with CARBON reinforced nylon 6/6 for excellent toughness. The low angle paddle design is very quiet in the water with absolutely no flutter.
Aqua Bound		Kids Sharkie	190 CM 200CM 210 CM	Carbon	\$ 115.00	With a small diameter CARBON shaft and lightweight symmetrical blades, this paddle is easy for children to hold and to learn basic paddle strokes with. All paddles come in two piece construction for easy storage and the ferrule system adjusts to 60 degree right hand control as well as 0 degree to help teach paddle feathering.
BB - Bending Branches		Sunrise - Aluminum	220, 230, 240 cm	E-coat Aluminum		The all new Sunrise for 2008 has it all! A new blade providing a smooth, easy pull, and durable e-coat black shaft with comfortable vinyl grips.
Sawyer		Sea Feather			\$ 149.95	Lighter, stronger, faster... we have the technology! Laminated Ponderosa pine/Douglas fir oval shaft; Ponderosa pine, Black walnut and White ash laminated blades, toughened with Sawyer-Glass™. As durable as it is beautiful, the Sea Feather adds to its aesthetic value by delivering solid performance year after year.

Sawyer

Sawyer		Orca			\$ 149.95	The powerful asymmetric spoon blade of the Sawyer Sea Gull wedged to the classic Cruiser construction method: Sawyer-Glassed™ Laminated Ponderosa pine, black walnut and White ash with Sawyer's famous solid fiberglass tip. Shaft is naturally indexing oval in laminated Ponderosa pine and Douglas fir. Sawyer's Orca offers added strength, less weight and a beautiful presentation of woods to an already beautiful and efficient design, to make what may be our most popular breakdown kayak paddle.
Sawyer		Greenland Storm			\$ 199.95	This entire paddle is shaft! Or is it all blade? Well, it's both. The Greenland style of paddling utilizes the stronger muscles of the torso and allows the hands to grip any part of the paddle. Hold it centered for all day forward motion. Slip it off center for quartering into a wind. Grip it near one end for extended paddle rolls. Avoid windage by lowering the blade into the water while sliding your upper hand onto the other blade.
Sawyer		Voyager		Cedar	139.95	The Sawyer Voyager meets the needs of the wilderness tripper encountering a wide variety of water conditions. The Sawyer-Glassed™ blade of the Voyager is strong and durable like all Sawyer paddles, but its molded blade shape offers the needed advantage for sculling or underwater return strokes. Long distance cruising fatigue is reduced with the Voyagers 4" wide palm grip and oval shaft.
Sawyer		Egret		Cedar	149.95	Stability, comfort, efficiency. The Egret takes the best features of the Sawyer Voyager and adds a 15° bend in the shaft for hours of energy efficient paddling. Durability accents stability in the carved Sawyer-Glassed™ Ponderosa pine, walnut and ash blade with a solid fiberglass tip. Comfort is aided by the curled palm grip, which allows an even spread of pressure across the strongest part of your hand.
Sawyer		Glide		Douglas Fir	45.95	The smooth pear grip is comfortable, the oval Douglas Fir shaft indexes nicely to the hand, the molded blade feathers cleanly through the water and has a wrapped up Rock Shield tip.
Sawyer		KAI - Bamboo		Carbon reinforced Bamboo	159.95	An innovative blend of environmentally friendly Bamboo fused with state of the art Carbon, leading to a first of its kind paddle. Crafted from Bamboo, one of the fastest growing plants on this planet, the Kai takes advantage of the inherent strength and flex of this enduring material. Feel better about your paddle!
Sawyer		Ranger		Douglas Fir	59.95	This paddle features a new smaller more modern blade profile that is intended for long trips and heavy use. The dual tapered, Douglas Fir shaft delivers real power to the blade and comfortably connects you to the water. The Ponderosa Pine blade of the Ranger™ is fully Sawyer Glassed™ reinforced with our exclusive full-rim, Dyneel™
